

## **MEMBER OF THE MONTH: MAY 2009**

### **Name of Business:**

McPherson Construction, LLC

### **Business Address:**

1980 10 Road, Mack, CO 81525

### **Phone Number:**

970-858-9089 fax 970-858-9035

### **Website:**

[mcpersoncustomhomes.com](http://mcpersoncustomhomes.com)

### **Member Name:**

Mr. Jody McPherson

### **Give us a brief description of your business:**

We build fine homes from quaint to large and lavish. We make every effort to stay on the cutting edge of technology for energy conscious homes. These new techniques can be implemented to keep utility costs down and maintenance at a minimum. At the same time McPherson Construction insists that the integrity and quality of craftsmanship is present in all projects: new construction and remodels. We implement conventional building techniques as well as SIPS, ICF and timber frame. McPherson Construction is your advocate from the design phase, during construction and after you move into your new home. We have unmatched customer service and I invite you to visit our website to see what our clients have to say and to view previous projects.

### **How many employees do you have?**

1

### **Tell us about yourself:**

I grew up in Colorado; my grandparents have been here for more than 60 years. I wanted to raise my family here because of the type of community and people that are here on the western slope. I have over 20 years experience in the construction industry. I have experience in every phase of construction. I usually pour my own foundations because I work with the ICF's. My true passion is fine woodworking and cabinetry. I take a great deal of pride in specially making the interior of my homes with custom kitchens, closets and bathroom designs. As well as completing the interior trim work.

### **What's unique about your business?**

McPherson Construction strives to build the absolute best product the client can achieve with the budget boundaries. Jody is on site a great deal of the time to ensure this happens. McPherson construction also has a custom cabinet shop and therefore can offer several custom features for the client's home. We have an energy audit performed on all our Projects: new construction and remodels when they are completed.

### **How do you benefit from being a member of the Housing and Building Association of Northwestern Colorado?**

Aside from all the obvious benefits: advertising, networking opportunities and the Home Show in the spring and Parade of homes in the fall. They also keep me informed and up to date in the political arena for our industry. Being a member and being on the board is a great way to support our industry and stay in touch with the community.

**What is the latest project you're working on?**

I am just completing a custom home in Fruita that is E-Star certified and Green Built. I have several remodels that include energy upgrades to help existing homes be more efficient. I also have a new home for sale in the Fruita area. It too, is E-star rated with a HERS rating of 73 which is only 3 points off the highest rating of 5- Star plus.
