Give us a brief description of your business: We supply Heating and Air Conditioning service and installation for homes and business's in the Grand Valley

How many employees do you have? 9

Tell us about yourself: We started our business in 2000 and have grown each year. As a company we try thank our community by giving back to our community, such as the Salvation Army project and the Boy Scouts of America through the Home Builders association. With generous donation from our supplier Johnstone Supplies and Breezair. We also get a Breezair donated to us for the Hospice silent auction and we donate our installation.

What's unique about your business? We try to over exceed our customer's expiations. If your not happy with our install product will take it out and give you back your money!

How do you benefit from being a member of the Housing and Building Association of Northwestern Colorado? The HBA works so hard not only for the builder in Northwestern Colorado but also for the community. The HBA is a non-profit organization and they give back so much to other non-profits it's very rewarding to be a part of that.

What is the latest project you're working on? We are currently working on numerous commercial and residential projects through out the valley.

We also have a Breezair to install at the Salvation Army house on Grand. Donated by Johnstone Supply and Breezair. Our distributor Johnstone also donated a furnace last year, which we installed for the Boy Scouts office.
